

our 3-designer challenge

Virginia Nebel, Summer Fullerton and Lisa VanderVeen were provided the same six products. Here are their creative results.

Always up for a challenge, our talented designers welcomed this latest opportunity to put their creativity to the test. How did each artist work with these products to make them her own? Turn the page to see just how different three layouts using the same six products can be.

hi & dad cards

additional supplies BORDER PUNCH, Fiskars; EMBOSSING POWDER, American Crafts; ADHESIVE, Xyron

We love how Virginia created bow ties from the triangle stamps and dies—perfect for her Father's Day card.

Virginia Nebel

On her vertical card, Virginia fussy cut a flower from patterned paper and layered it on a View Master wheel, adding two gold leaves for a little extra sparkle. A sprinkling of sequins and butterflies finishes this beautiful, feminine card. She left the chipboard letters raw on her second card to add to the masculine theme of her clever Father's Day card.

Summer Fullerton

Summer mixed and matched stamped and die cut triangles across the bottom of her page,

accenting them with tiny staples and sparkling sequins. Several more triangles hug the bottom, right corner of her two-part title, unifying this trendy theme.

Summer layered washi tape over her cardstock triangles for added texture and pattern play.

family first

additional supplies TINY ATTACHER, Tim Holtz; ADHESIVE, Scrapbook Adhesives by 3L®; OTHER, acrylic paint

To colour her chipboard title, Lisa heat embossed each letter with yellow embossing powder. We love the glossy, wet look!

Lisa VanderVeen

Lisa's layout screams all things summer, from the layered die cut sun that crowns the left page to the stamped and die cut banners strung up using folded washi tape. Notice how she turned the View Master motif into the center of her sun—so clever! A bright and shiny title rounds out this well-designed page.

hello summer
