Victoria Calvin, Lisa Dickinson, and Erica Thompson were provided with the same four products and challenged to create a layout.

With a little bit of creativity, even the smallest stash of supplies can produce something spectacular. Check out how each designer used her ingenuity to create a beautiful layout.

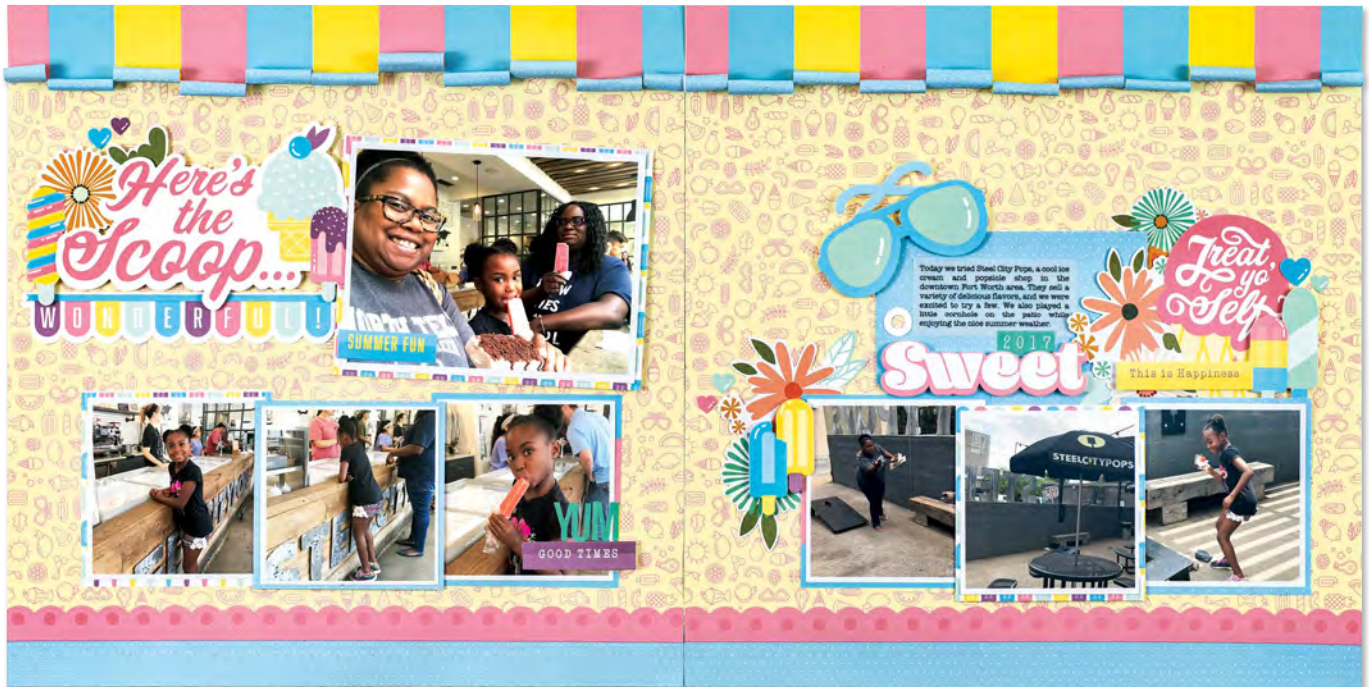

LISA'S DESIGN TIPS: Create a grid!

- Make a cute grid design! Each square can hold one thing—a photo, journaling, your title, or cute embellishments to further the colour scheme.
- Add circular elements to break up the rigidity of a grid design.

VICTORIA'S DESIGN TIP: Add dimension!

- Curl the edges of your patterned papers for extra depth and interest. We love how Victoria created a cute “awning” for her double-page spread!
