

# with love

A creative sendoff to keep you inspired until we meet again.

**Why should Christmas have all the fun with snow globes?** The new DIY Snow Globe from Doodlebug Design is fun the whole year through. This sweet, springtime vignette will look simply adorable on the mantel or tabletop for Easter. And what's even more fun is giving it a little shakety-shake!

## HOW TO MAKE THIS CUTIE

- 1 Use the globe backer board as a template to cut the sky.
- 2 Use a circle cutter for the grass using the INSIDE diameter of the globe; curve to top to create a hill.
- 3 To support the hill, adhere to foam board and set inside the globe.
- 4 Use foam board supports for the sun, the treetop, and the bunny head, too.
- 5 Pop up the bunny body, chick, and egg with foam dots.
- 6 Dust the sticker adhesive with powder to keep the shaker elements from sticking to them.
- 7 Add sprinkles to flower centers for extra dimension, and then adhere the whole thing to the backer board of the globe.
- 8 Fill the globe with desired shakers and fasten the back.

**DESIGN TIP: Make a summer-themed shaker** with travel or pool cuteness. I mean, why not?

**DESIGN TIP: This would be a super fun project** to do with your BFFs or for a kid's slumber party activity.
