

Kimberly Crawford

is a former elementary school teacher who followed her passion for paper crafting when she began staying home with her son. Her husband, being the reason she

discovered her passion in the first place, is incredibly supportive and does not say much about all the supplies that she has accumulated. She currently designs for My Favorite Things Stamps, We R Memory Keepers, Echo Park and Carta Bella, and teaches classes at Big Picture Classes. When she isn't creating, Kimberly loves to golf, take photographs, play the piano, and bake, which she recently found out is her way of procrastinating. Her family; husband of 17 years, Greg, her 10 year-old son Ethan, and cat Milo are former Minnesotans now living on the edge of a cornfield in eastern Iowa.

What good is the warmth of summer
without the cold of winter
to give it sweetness?
